"BUCKY" FULLER

“ In September of 1981
I met Dr. Fuller.

In 1981, my life changed.

My life changed because my
future changed.

My future changed because
I found the answer to my question:

***‘WHAT CAN A
LITTLE PERSON LIKE
ME DO...TO MAKE
A DIFFERENCE IN
THE WORLD?’***

**TO FIND YOUR ANSWER TO THE SAME QUESTION,
Invest 3-days studying the theories...
of one the world's greatest geniuses...
Dr. R. Buckminster Fuller.**

**IN 3 DAYS YOU WILL LEARN 3 IMPORTANT SKILLS.
How to: 1) Predict 2) Create 3) Change Your Future**

In 1981, I was a manufacturer with
factories in Korea, Taiwan and Hawaii.
In September of that same year, my career
as a manufacturer ended and I became
an educator because I could foresee the
economic turmoil the world is in today. **”**

ROBERT ON “WHO IS BUCKY FULLER?”

Harvard University claims Dr. R. Buckminster Fuller as one of their noted graduates...although he never graduated from Harvard.

The AIA, The American Institute of Architects, hails Dr. Fuller or “Bucky” as **one of America’s greatest architects**. He was not an architect.

My friend John Denver called Dr. Fuller, “**Grandfather of the Future.**”

Dr. Fuller was known as a “**Futurist.**” He was also known as “**The Planet’s Friendly Genius**” because he dedicated his life to a world that worked for all things and all people. Bucky was an environmentalist of the universe before the world knew what an environmentalist was, much less the universe. In other words, **he was a very big thinker.**

I had the honor of studying with Dr. Fuller three times in my life, and each time my life changed dramatically. Each time, I could see the planet’s new future, and my new future, more clearly.

Much of his work was over my head. I could not understand most of his books. Yet, there were two books I did understand. One was *Critical Path*, which is about the critical evolutionary path we as humans are on. The second is *Grunch of Giants*. “Grunch” stands for Gross, Universal Cash Heist. *Grunch* is about how the richest people in the world steal through our governments, politicians, and banks, from the rest of us. The sub-prime mess, inflation, decline in savings, and the growing gap between the rich and everyone else, is the work of Grunch.

The Dymaxion car was a concept car from 1933, designed by U.S. inventor and architect Buckminster Fuller. The word Dymaxion is a brand name that Fuller gave to several of his inventions, to emphasize that he considered them part of a more far-reaching project to improve humanity’s living conditions. The car had a fuel efficiency of 30 miles per US gallon, which was unheard of in the United States at the time. It could transport eleven passengers. While Fuller claimed it could reach speeds of 120 miles per hour, the fastest documented speed was 90 miles per hour.

CHANGING YOUR POINT OF VIEW

In *Who's Who of America*, Dr. Fuller is recognized as one of the most accomplished Americans in history. Few people have as many patents after their name.

His Dymaxion map (left) is one of his design patents.

He thought Mercator Projection Maps (below) used in the classroom distorted our point of view on the world.

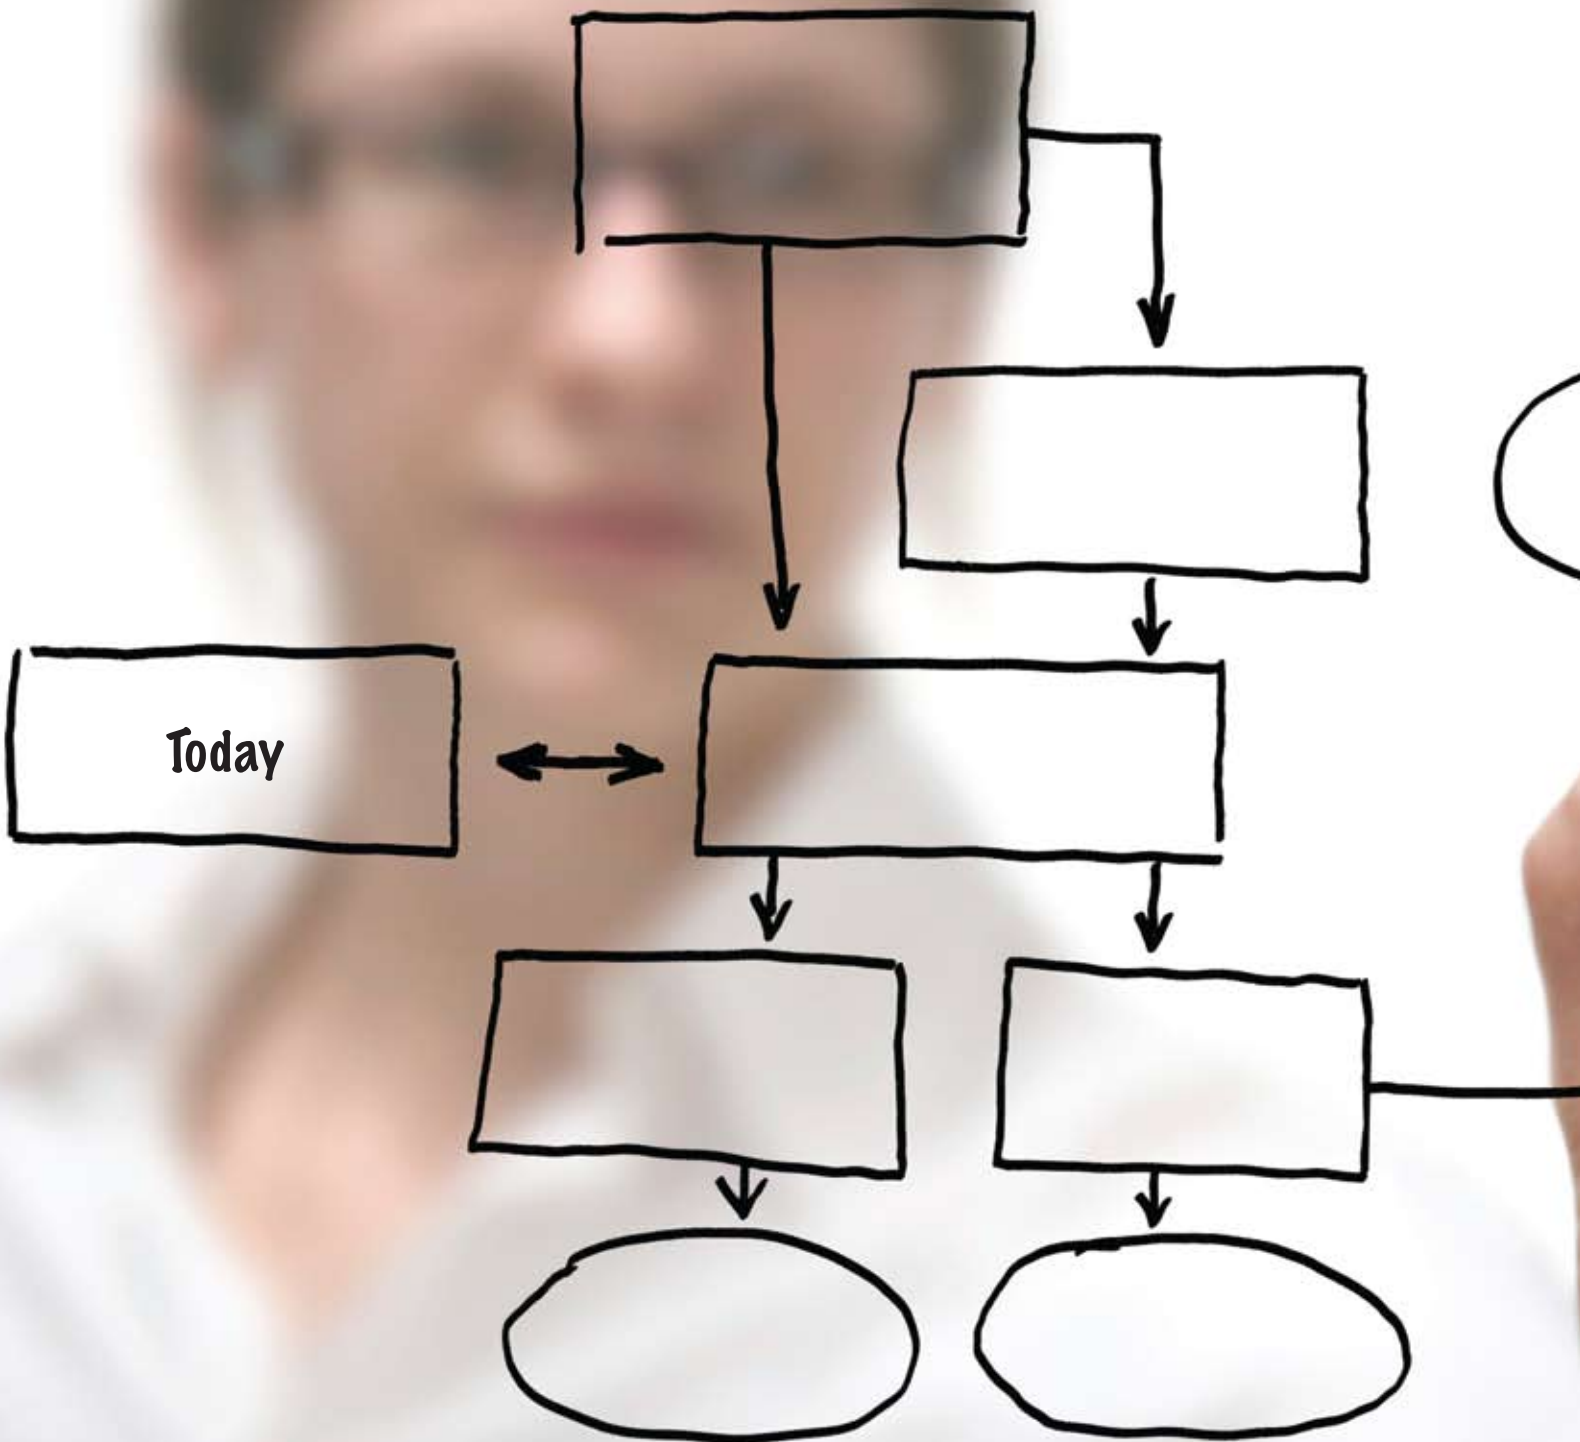

Some distortions are:

- Classroom maps show Greenland and Alaska twice as big as America.
- It shows the world as an East-West world separated by oceans.
- Dr. Fuller's map shows a world with minimal distortion; and our world is a North-South **one-world island**, not separated by oceans.

LEARN DR. FULLER'S METHODS OF:

1. HOW TO PREDICT THE FUTURE
2. HOW TO CREATE YOUR FUTURE
3. HOW TO CHANGE YOUR FINANCIAL FUTURE

DURING THE 3-DAY SEMINAR, ROBERT WILL FOCUS ON TOPICS THAT INCLUDE:

1. How to Predict the Future

By studying Dr. Fuller's work on prognostication, you will learn how the future is not traveling in a straight line. You will learn how to change your life by changing your future.

2. How to Create Your Future

Rich Dad's Advisor Blair Singer will teach PERT (Planning Evaluation Revue Technique). Through this you will gain the ability to go into the future and create backwards. PERT was the planning technique used to put the first humans on the moon.

3. How to Print Your Own Money (and change your financial future)

One of the most powerful books Robert has read is Dr. Fuller's *Grunch of Giants*, GRUNCH stands for Gross Universal Cash Heast. The book is about how the rich print their own money and that is why they're rich. You will learn to do the same. More importantly, you will learn how to prosper from the future of money...not be a victim of it.

ROBERT'S SUMMARY: *If not for Bucky, I would not be an educator, there would be no Rich Dad Company and I would not be printing my own money. I am a much richer person today because of him.*

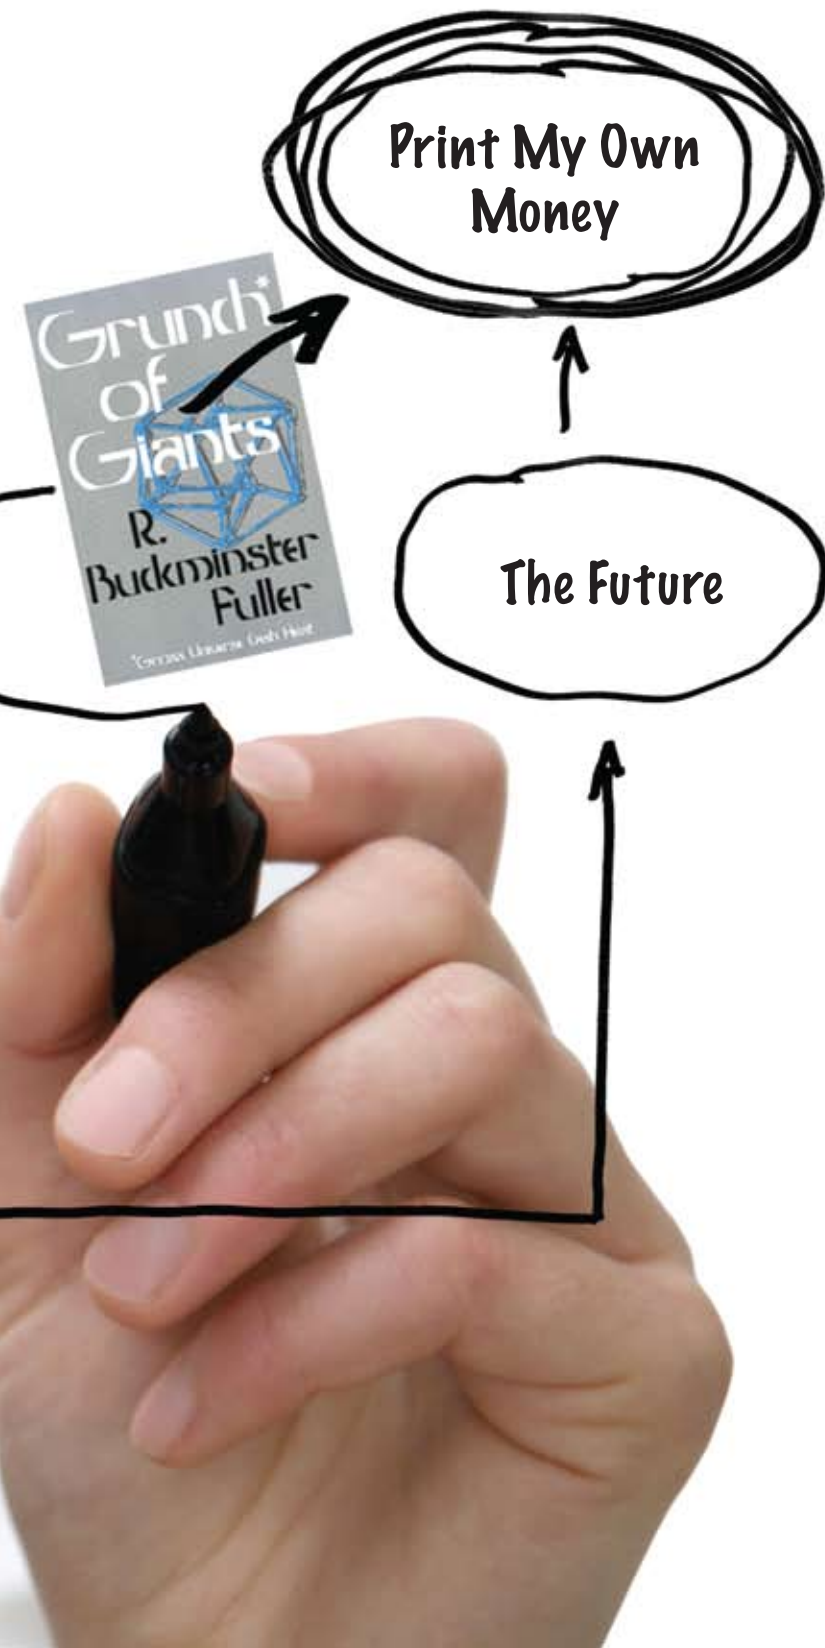

PRICE: \$5,000, AND \$3,500 FOR RICH DAD INSIDERS MEMBERS. SPECIAL DISCOUNTS ALSO AVAILABLE FOR EARLY REGISTRATIONS.

DATES & TIMES: OCTOBER 24, 25: 8AM – 10PM; OCTOBER 26: 8AM – 5PM, FOLLOWED BY A COCKTAIL PARTY HOSTED BY ROBERT & KIM.

PICTURED BELOW IS DR. FULLER'S
GEODESIC DOME, WHICH WAS THE FOCAL POINT OF
EXPO '67 IN MONTREAL, CANADA. IN 1967 I HITCH-HIKED
FROM NEW YORK CITY TO MONTREAL TO SEE
THIS GREAT MAN'S WORK. LITTLE DID I KNOW THAT
IN 1981, I WOULD MEET AND SPEND FIVE DAYS WITH
HIM IN KIRKWOOD, CALIFORNIA. COULD IT BE THAT
THIS WAS PREDESTINED? WHO KNOWS?

**DR. FULLER ANSWERED MY LIFE'S QUESTION
"WHAT CAN A LITTLE PERSON LIKE ME DO...
TO MAKE A DIFFERENCE IN THE WORLD?"**

**IF YOU ARE SEEKING YOUR ANSWER TO
THE SAME QUESTION...JOIN US IN OCTOBER.**
